

Conflict of Minerals Policy Statement

Introduction:

As many of our customers have acknowledged, the Dodd-Frank Act created a new expectation for product manufacturers, which may be far removed from the source of the raw minerals in our products. Donelec Group Ltd manufactures thousands of branded products that are manufactured by various companies within the Group located around the UK. Donelec Group Ltd is committed to acting in a socially and environmentally responsible manner, to complying with the law, to meeting its customer commitments, and to supporting its customers' businesses. Because of the complexity of many supply chains, especially those of broad-line industrial distributors like Donelec Group Ltd, and the lack of an established system for product manufacturers to track Conflict Minerals back to their source, the joint efforts over an extended period by many governments, industry groups, and companies will be required to make it possible to effectively trace Conflict Minerals back to their source. This document sets forth the policy of Donelec Group Ltd regarding Conflict Minerals.

Overview:

As a responsible company, Donelec Group Ltd supports the goal of the Dodd-Frank Act of preventing armed groups in the Democratic Republic of the Congo and adjoining countries from benefitting from the sourcing of Conflict Minerals from that region. As an industrial manufacturer of thousands of branded products, manufactured by other companies located around the United Kingdom, Donelec Group Ltd is invariably many levels away from the beginning of the supply chain for the products it distributes. This Policy shows Donelec Group Ltd commitment and its expectations for its product suppliers regarding actions to address Conflict Minerals.

On July 21, 2010, the Dodd-Frank Wall Street Reform and Consumer Protection Act was signed into law. The Dodd-Frank Act and related 2012 U.S. Securities and Exchange Commission rules require certain companies to disclose whether the products they manufacture or contract to manufacture contain Conflict Minerals necessary for the production or the functionality of the products that are sourced from mines in the Democratic Republic of the Congo or adjoining countries. Conflict Minerals are tantalum, tin, tungsten, and gold.

Our Commitment:

1. Support the aims and objectives of the Dodd-Frank Act concerning Conflict Minerals sourcing by working to educate the manufacturers of the products we distribute about Conflict Minerals.
2. Help our suppliers understand the due diligence steps they can take to investigate the source of any Conflict Minerals in the products they sell to Donelec Group Ltd.
3. Not continue to source from a supplier any product that contains Conflict Minerals if Donelec Group Ltd determines the product is not DRC Conflict Free and the supplier fails to implement reasonable steps to transition to DRC Conflict Free sources.²

Commitment to Responsible Sourcing

Donelec Group Ltd distributes thousands of branded products that are manufactured by other companies located around the United Kingdom.

Donelec Group Ltd supports the humanitarian goals of the Dodd-Frank Act and encourages the manufacturers of the products distributed by Donelec Group Ltd to adopt that same policy for their businesses.

As a manufacturer of products, Donelec Group Ltd does not directly purchase any raw Conflict Minerals from any source and is many levels removed from the mines, smelters, and refiners that produce the metals used in the products manufactured by Donelec Group Ltd.'s suppliers.

The supply chain for Conflict Minerals is complex and lacks an established structure for product manufacturers to trace the minerals in the finished goods distributed by Donelec Group Ltd back to their source.

Donelec Group Ltd is committed to working with its suppliers to educate them on these matters and concerning steps they can take to obtain increased transparency regarding the origin of minerals contained in the products they manufacture and sell to Donelec Group Ltd.

Supplier Code:

Donelec Group Ltd has the following expectations of its suppliers: Suppliers should not include in any products sold to Donelec Group Ltd any Conflict Minerals that are not DRC Conflict Free; Suppliers should develop Conflict Minerals policies, due diligence frameworks, and management systems that are designed to prevent Conflict Minerals that are not DRC Conflict Free from being included in the products sold to Donelec Group Ltd; and Donelec Group Ltd suppliers are expected to source Conflict Minerals only from sources that are DRC Conflict Free.

² Products are "DRC Conflict Free" if they contain only Conflict Minerals that did not originate in the DRC or an adjoining country, are from recycled or scrap sources, or have not benefitted the armed groups identified as perpetrators of the abuses that are the subject of the Dodd-Frank Act.

Suppliers also are encouraged to support industry efforts to enhance traceability and responsible practices in Conflict Minerals supply chains.
